**Subject:** Document Request Pursuant to Sunshine Ordinance

Dear Public Records,

On March 24, 2010, in regard to a "Letter to Alice Waters from the OCA," Ed Harrington wrote in an email to Francesca Vietor: "We have started doing all of the testing-of our product and other composting materials. I am told these test take 2-3 weeks even though our chemists are giving it the highest priority."

Please provide all documents relating to, referring to, and/or constituting the testing procedures, programs and results referred to by Mr. Harrington in the above exchange. As previously established, "documents" should be construed liberally so as to capture and include all responsive documents and communications of any kind, including, but not limited to, emails, letters, attachments, reports, agendas, meeting notes, handwritten notes, telephone messages, memoranda, etc., so as to make your response to this request as inclusive as possible.

Best regards,

John Mayer
